Profile

I'm an aspiring Full-Stack Developer skilled in the Mern, with a passion for building dynamic, user-friendly web applications. I thrive on solving problems with innovative solutions and am eager to collaborate on projects that make a real-world impact.

EDUCATION

12/2024
Berlin, Germany

Full Stack Web Developer Training Digital Career institute GmbH

- Developed full-stack web applications Using MongoDB, Express.js, React, and Node.js, With expertise in RESTful API Integration, Real-Time Applications, And AI-Driven Solutions.
- Completed German language training Up To B1 Level Through Lingoda While Attending A One-Year Full-Stack Development Course At DCI.
- Implemented responsive front-end designs Using HTML, CSS, JavaScript, React, and Tailwind CSS, Ensuring Seamless User Experiences Across Devices.
- Utilized version control and testing tools Like Git, GitHub, Postman, And Unit Testing Frameworks To Debug, Deploy, And Maintain High-Quality Software Solutions.

04/2011 – 10/2015
Eket, Akwa ibom, Nigeria

Higher National Diploma Heritage Polytechnic

- Designed and developed a functional speaker system, integrating acoustic principles and electrical engineering concepts, as part of a hands-on course/thesis project.

WORK EXPERIENCE

11/2022 – 02/2024
Berlin, Germany

Production Associate Gigafactory Berlin-Brandenburg

- Manufactures Batteries, Powertrains, Seats, And Model Y Components, Including Casting, Stamping, Painting, Drivetrain, And Final Assembly.
- Facilitated seamless communication and reporting Across Cross-Functional Teams, Ensuring Efficient Collaboration Between Software Development And Production Operations
- Executed rigorous testing and troubleshooting Processes For Web Applications, Identifying And Resolving Critical Bugs To Uphold High-Quality Standards In Manufacturing Technologies.
- Collaborated effectively with diverse teams To Implement Quality Assurance Practices, Enhancing System Reliability And Alignment With Gigafactory Production Goals.

02/2022 – 11/2025
Berlin, Germany

Technical Support & Customer Service Hase

- Provided technical support for daily operations, which included managing manual data entry and maintaining office organization to ensure a smooth workflow.
- Welcomed guests and efficiently assisted with skateboard rentals and sales, helping to create a friendly atmosphere that enhanced customer experience.
- Produced and edited engaging photo and video content for social media and marketing, which helped boost event documentation and increased visibility.
- Participated in local art exhibitions and cultural events like “48 Stunden Neukölln,” promoting community engagement and showcasing our commitment to local culture.
- Contributed to neighborhood initiatives by supporting artistic collaborations, which helped strengthen local outreach and foster community connections.

PERSONAL PROJECTS

02/2025 – 03/2025

Tiny Tales

- Built a MERN-stack web application that enables parents to create personalized bedtime stories based on their child's age, name, favorite animal, and story theme.
- Implemented user registration, dynamic story templates, optional bedtime music, PDF

PERSONAL PROJECTS

11/2024 – 12/2024

- download, and personal story library with full account management.
- Contributed to both frontend and backend: JWT authentication, file uploads via Cloudinary, and email notifications using Nodemailer.
- Tech stack: React, Node.js, Express, MongoDB, Tailwind CSS, PDFKit, JWT, Cloudinary, Nodemailer.

Hotel booking app

- Full-Stack Implementation : Developed A Complete Full-Stack Application Using The MERN stack (MongoDB, Express.js, React, Node.js).
- Responsive User Interface : Designed A User-Friendly And Mobile-Responsive Front-End Using React and Tailwind CSS.
- Advanced Functionality : Implemented Search And Filter Features That Significantly Improve User Experience.
- Database Design : Designed And Optimized A Scalable Database Schema With MongoDB For Storing User And Booking Data.

01/2025 – 02/2025

E-commerce website

- Developed a complete full-stack application using the MERN stack (MongoDB, Express.js, React, Node.js), which enhanced overall functionality and performance for users.
- Designed a user-friendly and mobile-responsive front-end with React and Tailwind CSS, helping to improve user engagement and accessibility across devices.
- Created and optimized a scalable database schema with MongoDB for storing user and booking data, which ensured efficient data management and retrieval, supporting a growing user base.

01/2025 – 02/2025

full-stack Blogging app

- Developed a complete full-stack blogging application using the MERN stack (MongoDB, Express.js, React, Node.js), which streamlined the development process and improved overall performance.
- Designed a user-friendly and mobile-responsive front-end with React and Tailwind CSS, helping to enhance user engagement and accessibility across devices.
- Created and optimized a scalable database schema using MongoDB for storing user and booking data, which facilitated efficient data management and retrieval, supporting increased user activity.

CERTIFICATES

01/2023

CSS, Bootstrap ,JavaScript, Web Development Course PROPER DOT INSTITUTE on Udemy

04/2025

Web and Software Developer Digital Career Institute

Certified Web and Software Developer from Digital Career Institute, which demonstrates expertise in digital literacy, UI basics, programming fundamentals, single page applications, and backend development, enhancing overall project capabilities.
